

ISI Company Overview

At a glance

We design, engineer, build, program, deliver, and install custom automation solutions for customers in a wide variety of industries all over the world. Our CEO, Robert J. Brown likes to say, "I know that when I come to work, someone is gonna call and ask me to build them something that probably hasn't ever been built before."

History

Since 2000, we've been innovating and automating from our headquarters in Darlington, SC. Over the years, we've developed lasting relationships with robotics industry leaders such as ABB, Miller-Panasonic, Motoman-Yaskawa, Kuka, and Fanuc.

Offerings

- Palletizing
- Welding
- Material Handling
- Machine Tending

- Hard Automation

Capabilities

- 100% Vertically-Integrated
- CAD-CAM Design
- SolidWorks Imaging
- PLC Programming
- CNC Machining
- Fabrication
- Industrial/Mechanical Consulting

ISI has demonstrated excellence in handling multi-million dollar jobs on two continents for Deere-Hitachi. They continue to provide excellent service and a fast response.

Adam Beane
Deere-Hitachi

With four new complete palletizing systems and three retrofits of other manufacturer's systems, ISI has exceeded all of our expectations and delivered on-time and under-budget. Over the years, ISI and I have worked well to jointly design optimal palletizing systems. they are always very willing to jump in the plane and head to the location if needed. After 6+ years working with them, I can highly recommend ISI for all your automation needs.

Jamison Whelchel
SONOCO
